

0301105C1010 B.Sc. Semester - 1 (*CBCS*) Examination Nov./Dec. -2018 (Old Course) MICRO BIOLOGY (CORE)

Seat No :_____

Time: 2:30 Hours Instructions: 1. All questions are compulsory. 2. Figures to the right indicate marks.	Marks: 70
 Ques.1 A. Answer the following (One mark each) 1) What is the contribution of Robert Koch ? 2) Who proposed the kingdom Protista ? 3) Giant puff balls are kind of algae (state True or False) 4) Pasteurization was used by Pasteur for removing unwanted microbes from wine. (state True or False) 	(4)
 Ques.1 B. Answer in brief (Any one out of two) 1) Explain salient features of fungi. 2) What is the contribution of Selman Waksman and Alexander Fleming ? 	(2)
 Ques.1 C. Answer in detail (Any one out of two) 1) Explain Germ theory of diseases. 2) Write a note on Bergy's Manual. 	(3)
 Ques.1 D. Write a note on (Any one out of two) 1) Describe applied areas of microbiology. 2) Give an account on spontaneous generation theory and its elimination. 	(5)
 Ques.2 A. Answer the following (One mark each) 1) Define : Chromophore 2) What is Rhodamine and Fluorescein ? 3) Write full forms of TEM, SEM and STEM. 4) What is a mordant ? 	(4)
 Ques.2 B. Answer in brief (Any one out of two) 1) What is the principle of Phase contrast microscopy ? 2) Explain NA 	(2)
 Ques.2 c. Answer in detail (Any one out of two) 1) Explain differential staining in detail. 2) Discuss the principle of electron microscopy. 	(3)
 Ques.2 d. Write a note on (Any one out of two) 1) Explain stains, mordants and fixatives. 2) Describe Bright field microscopy and Dark field microscopy with their uses. 	(5)
 Ques.3 A. Answer the following (One mark each) 1) Which organelle contains Basal body and Hook ? 2) What is an outer membrane ? 3) Capsules are useful in storing excess nutrients of cells. (Write true or fasle) 4) What is mesosome ? 	(4)

 Ques.3 B. Answer in brief (Any one out of two) 1) Explain cell inclusion bodies in brief. 2) Discuss prosthacae and stalk 	(2)
 Ques.3 c. Answer in detail (Any one out of two) 1) Explain peptidoglycan composition 2) Explain the functions of capsule 	(3)
 Ques.3 d. Write a note on (Any one out of two) 1) Bacterial cell membrane 2) Importance of sporulation 	(5)
 Ques.4 A. Answer the following (One mark each) 1) What are Halophiles ? 2) What is a selective medium ? 3) What is superoxide dismutase ? 4) Enlist major chemical requirement for growth. 	(4)
 Ques.4 B. Answer in brief (Any one out of two) 1) Explain Psychrophiles, Chemotrophs and Heterotrophs in brief. 2) Define and discuss :Pure culture. 	(2)
 Ques.4 c. Answer in detail (Any one out of two) 1) Explain nutritional types of bacteria 2) What is oxygen toxicity ? 	(3)
 Ques.4 d. Write a note on (Any one out of two) 1) Explain physical requirements for growth. 2) Write a note on bacterial cultural characteristics 	(5)
 Ques.5 A. Answer the following (One mark each) 1) What is Growth rate ? 2) What is budding ? 3) What is reverse log phase ? 4) Define : Continuous culture 	(4)
 Ques.5 B. Answer in brief (Any one out of two) 1) What is transverse binary fission ? 2) Discuss mathematical expression of growth. 	(2)
 Ques.5 c. Answer in detail (Any one out of two) 1) Explain modes of bacterial cell division. 2) Explain synchronous culture in detail 	(3)
 Ques.5 d. Write a note on (Any one out of two) 1) Bacterial growth curve 2) Chemostat and Turbidostat 	(5)
